This expanded edition follows the original workbook's sequence: phonics and reading strategy, vowels and consonants, pronunciation, final spelling patterns A–Z, word sort, word meaning, fluency, proofreading, decoding and word study.

Contents

Unit 1	Introduction & reading strategy	Pages 3–8
Unit 2	Vowels & consonants	Pages 9–35
Unit 3	Pronunciation & stress	Pages 36–51
Unit 4	Final spelling patterns A–Z	Pages 52–103
Unit 5	Word study & vocabulary	Pages 104–126
Unit 6	Fluency, decoding & proofreading	Pages 127–141
Unit 7	Revision & tests	Pages 142–150

The original contents identify these same core sections and practice types.

TEACHING NOTE

Phonics connects spoken sounds with written letters and patterns. In Grade 5 it helps readers approach long, unfamiliar and academic words.

WORKED EXAMPLE

For **government** or **photosynthesis**, look for familiar chunks, divide the word into manageable parts, sound them out, blend them and check the sentence.

CLASS EXERCISE

1. Explain the idea in your own words.

2. Explain the idea in your own words.

3. Explain the idea in your own words.

CHALLENGE

Choose an unfamiliar school word and describe how you would decode it.

TEACHING NOTE

Readers still meet words they have not memorised. Familiar spelling patterns give them a method instead of random guessing.

WORKED EXAMPLE

For *government* or *photosynthesis*, look for familiar chunks, divide the word into manageable parts, sound them out, blend them and check the sentence.

CLASS EXERCISE

1. Explain the idea in your own words.

2. Explain the idea in your own words.

3. Explain the idea in your own words.

CHALLENGE

Choose an unfamiliar school word and describe how you would decode it.

TEACHING NOTE

Decoding turns letters into sounds; meaning connects the word to an idea. Both are needed for successful reading.

WORKED EXAMPLE

For government or photosynthesis, look for familiar chunks, divide the word into manageable parts, sound them out, blend them and check the sentence.

CLASS EXERCISE

1. Explain the idea in your own words.

2. Explain the idea in your own words.

3. Explain the idea in your own words.

CHALLENGE

Choose an unfamiliar school word and describe how you would decode it.

TEACHING NOTE

Fluency means smooth, natural reading with expression. Accuracy means reading and spelling words correctly and checking mistakes.

WORKED EXAMPLE

For *government* or *photosynthesis*, look for familiar chunks, divide the word into manageable parts, sound them out, blend them and check the sentence.

CLASS EXERCISE

1. Explain the idea in your own words.

2. Explain the idea in your own words.

3. Explain the idea in your own words.

CHALLENGE

Choose an unfamiliar school word and describe how you would decode it.

TEACHING NOTE

Look for a pattern; divide the word; sound out each part; blend; check whether the word makes sense in the sentence.

WORKED EXAMPLE

For government or photosynthesis, look for familiar chunks, divide the word into manageable parts, sound them out, blend them and check the sentence.

CLASS EXERCISE

1. Explain the idea in your own words.

2. Explain the idea in your own words.

3. Explain the idea in your own words.

CHALLENGE

Choose an unfamiliar school word and describe how you would decode it.

TEACHING NOTE

Use the five ideas above to explain how phonics supports real reading.

WORKED EXAMPLE

For government or photosynthesis, look for familiar chunks, divide the word into manageable parts, sound them out, blend them and check the sentence.
